RESEACH METHODS ROUND TABLE

Adri van den Brink, Diedrich Bruns

A round table session exploring which research domains experts from academia and professional practice prioritize as most important for landscape architecture as a scientific research discipline and which domains experts from academia and professional practice prioritize as most useful for landscape architecture practice. This will include a single presentation based on a recently published paper followed by a moderated discussion with key discussants and the audience.

EXPLORING RESEARCH PRIORITIES IN LANDSCAPE ARCHITECTURE: AN INTERNATIONAL DELPHI STUDY
Jurian Meijering, Hilde Tobi, Adri van den Brink, Fiona Morris, Diedrich Bruns
Landscape and Urban Planning 2015 (137): 86-94.
