

THE UNIVERSITY of EDINBURGH  
Edinburgh College of Art

**Barrie Wilson PhD  
Conference and  
Award**

is an annual PhD conference to celebrate the work of ESALA's Postgraduate Research Students. The Award is given in memory of the late Professor Barrie Wilson, a Vice Principal of the University of Edinburgh, and also a Postgraduate Advisor in Architecture. Professor Wilson was a key member of the university in the area of Environmental Design and Architectural Building Science.

The Barrie Wilson Award is made annually and has traditionally been presented to a First-Year student on the basis of 'excellence of First Year Report' and 'contribution to the life of the student body'. This year, however, the conference will host Postgraduate Research Students who started their PhD studies between 2019 and 2021 and the award will be presented to three students based on excellence of the presented paper and contribution to the life of the student body. The award will be judged by the ESALA PGR Committee.

# THE BARRIE WILSON PHD CONFERENCE 2023
